I am writing to you on behalf of the Steering Committee of the World Congress on Thyroid Cancer (WCTC), seeking support from your organization for the WCTC in Boston July 9 – 12, 2025.

We will have an exceptional scientific program which will bring together leading global experts for a memorable experience.

We would like to request three things from your organization:

1. Use of your logo on our website as a supporting organization. You will have no obligation or financial responsibility. This would reflect simply academic and intellectual support, as has been done by many other organizations.
2. Disseminating information about WCTC 2025 by sending our postcard (attached) to your membership electronically.
3. Posting our website <http://thyroidworldcongress.com/> as a link on your website.

We do hope that you will support this endeavor. We would like to think of this as a cross-promotional opportunity for both parties!

Thank you for taking the time to review our request.

Yours sincerely,

Jatin P. Shah, MD on behalf of the Steering Committee of the WCTC
